About Us

Frontline General Engineering Construction is a full-service general engineering and building contractor delivering high-quality infrastructure and civil projects. Serving the Bay Area and Central Valley, Frontline specializes in underground utilities, demolition, grading, excavation, on-site concrete work, as well as playground and recreational park construction, residential ground-up construction, and commercial construction. Additionally, Frontline offers contingency and disaster response services along with environmentally-conscious solutions. Our operations emphasize safety, sustainability, and fostering an employee-centered workplace culture.

Core Capabilities

- ✔ **Underground Utilities:** Complete installation and maintenance services for public and private projects.
- ✔ **Demolition Services:** Safe and efficient demolition for site preparation.
- ✔ **Grading and Excavation:** Precision earthwork for project foundations and infrastructure.
- ✔ **On-Site Concrete:** Expert concrete pouring and finishing for industrial, commercial, and public spaces.
- ✔ **Playground and Recreational Park Construction:** Specialized construction of public and private recreational areas.
- ✔ **Residential Ground-Up Construction:** Comprehensive solutions for new residential developments.
- ✔ **Commercial Construction:** Turnkey services for commercial property projects.
- ✔ **Contingency & Disaster Response:** Rapid-response construction and repair services for emergency situations.
- ✔ **Environmental Services:** Environmentally-conscious site preparation, remediation, and compliance management.

Differentiators

- ✔ Highly skilled workforce with robust self-performance capabilities ensures high-quality results and cost-efficiency.
- ✔ Strong emphasis on safety-first operations and environmentally-conscious practices.
- ✔ Extensive experience working with both private and public sector clients.
